Dear Usedom Beachcup,

We are pleased to confirm that you have set the new Guinness World Record for 'Largest beach volleyball tournament' and a certificate to commemorate this is included.

Details of your achievement have been entered into our records as follows:

The record for the largest beach volley tournament is for the Usedom BeachCup 2008 with 1,020 players, celebrated in Karlshagen, Insel Usedom, Germany, from 1 to 3 August 2008.

Although the certificate does not automatically guarantee an entry in our world-famous annual book, we do consider all new records for inclusion in all future Guinness World Records publications and products.

As an official record holder, you can request further certificates and find out all about using our logo and trademark to let everyone know about your achievement or for any other commercial purpose. To find out more, please go to www.guinnessworldrecords.com, log in and select claim 229482.

Welcome to the very select club of Guinness World Records holders. To join our fantastic community website, upload your videos and post your comments, please visit www.guinnessworldrecords.com/community and let everyone see your brand new record!

Yours sincerely,

Tzeni Karampoiki
